GitHub: https://github.com/wadewilsones

Highly motivated full-stack-developer. I have +1.5 years of experience with technologies like HTML, CSS, JavaScript, React, and Node. Recently created and deployed my own application using the MERN stack.

SKILLS

- HTML5
- CSS3, SASS
- JavaScript, React, REST API
- Node.js, Express
- Git
- PostgreSQL, MongoDB
- Webpack
- Bootstrap, MaterialUI
- UX/UI, Figma, Adobe Photoshop

WORK EXPERIENCE

Intern Front-end Developer **March 2022 – Present**
GoFaRnd *Carrboro, NC*

- Created a digital prototype for a future CRUD application using Figma software.
- Developed the front-end part of the platform using React, Node.js, and MongoDB

Technical Editor **Dec 2022 – Jan 2019**
Dizhan-2000 *Minsk, Belarus*

- Developed unique designs using tools like Adobe Photoshop, and Adobe Illustrator.
- Designed and printed numerous books using Adobe InDesign.

RECENT PROJECT

Mood App **March 5, 2022 – May 18, 2022**
A full-stack web application that allows users to track their mood
Link to the project: https://mood-tracker-application.herokuapp.com/login

- Used React JS to build a front-end part of the application.
- Built a backend side using Express.js and Node.js.
- Used Weather API to show weather in the current user location.
- Created authentication and authorization using base64 and bcrypt encryption.
- Developed PostgreSQL database tables for saving user data.
